PHISHING PREVENTION TESTING AND TRAINING

Professional Support SO YOU CAN FOCUS ON YOUR BUSINESS!

PCCC's Phishing Testing and Training is a comprehensive product that begins with our experts testing your current system to reveal potential gaps and offer actionable recommendations! We follow-up with training that focuses on educating users and improving the cyber posture of the entire organization.

OUR TESTING PLAN

PCCC's Phishing Testing phase starts with our custom expert crafted phishing emails based on our threat database.

These tests encompass 3 levels that range from easily identifiable attacks and progress to targeted attacks based on real-world tactics. You also gain access to PCCC's Phishing Hotline for one year.

OUR TRAINING PHILOSOPHY

PCCC's Phishing Awareness Training is tailored to educate and empower your users, without making them feel foolish and avoiding over-confidence.

Our Training is designed to meet regulatory & NIST security controls for annual awareness & training including recordings of each session.

**EVERYONE IS
VULNERABLE,
DON'T GET CAUGHT!**

RAPTOR PHISHING PREVENTION SERVICES

Every organization as well as their employees should be knowledgeable about how to spot phishing emails and how to prevent attacks. Many organizations already incorporate mandatory and regulatory requirements for phishing training such as NIST SP 800-171 and SP 800-53 Awareness and Training Control Families.

RAPTOR PHISHING HOTLINE

Have a question about an email? Is it categorized incorrectly or is it even a scam? Raptor Phishing Hotline quickly and effectively provides expert guidance to keep your organization safe.

RAPTOR PHISH TESTING

Do you need to test your users to better understand security risks? PCCC's Phishing Testing offerings are effective and customized for each client while designed to avoid making users feel foolish or overconfident.

RAPTOR RETAINERS

Raptor Retainers guarantee a response time of no more than 1 business day anywhere in the world in the event of a cybersecurity incident to provide resources and expedite your recovery.

RAPTOR REMARKS

Raptor Remarks is an add-on for Raptor Email Security that constantly alerts and educates users about threats in email including zero day threats, malware, and user impersonations.

RAPTOR CONTINUITY

Raptor Continuity is an add-on for Raptor Email Security to mirror your mail on our servers to provide business continuity in the event of a cyber attack or other email outage.

RAPTOR TRAINING

Raptor Training Courses are always up to date, tailored for each client, and leverage our extensive catalog of materials. Courses include phishing prevention, social media awareness, and security rules using a fun and engaging format.

RAPTOR INCIDENT RESPONSE

If you experience a cyber incident, PCCC is available 24/7/365 to calmly guide you through the business, technical, and public-relations challenges using trusted, experienced, and discrete resources.

RAPTOR EMAIL SECURITY

Tired of losing emails? Too much phishing, spam, and malware in your inbox? Raptor Email Security is an industry-leading, cloud-based solution operated by world-recognized experts to stop spam, phishing, and malware attacks.
